What are The Shops at Daniel Boone?

In the early 1960's, James J. Freeland saw the need for a recreational/shopping area for the residents of Orange County. He began developing what was then known as Daniel Boone Country. Today, The Shops at Daniel Boone have grown as a shopping experience not only for Orange County residents, but for people all over the state and southeast.

The nearly 100 businesses make The Shops at Daniel Boone a unique shopping experience. You'll find antiques, toys & collectibles, clothing, needlework shops, art and framing, gifts, home accessories, sporting goods, home improvement, financial services, realtors and restaurants. The Shops at Daniel Boone have it all.

With a convenient location, just off both Interstates 85 and 40, The Shops at Daniel Boone attract all ages and interests.
